

Our new 12 month sanitisation package.

Providing you with protection and prevention all year round. With our flexible annual contracts, keeping you, you're business, you're clients and you're customers safe.

12 months protection

Staying safe all year round.

Benefits of our 12 month sanitisation package:

- FREE callout charges - No premium to pay during your contract so you can plan your cash flow without any unexpected costs.
- You will receive a certificate every month which you can publish to your customers, staff and clients for piece of mind.
- Full sanitisations carried out by fully trained staff members, applying and fogging our proven and approved formula to all touch points.

Just because you can't see the viruses or bad bacteria doesn't mean it's not there.

To help your business remain operational and reduce the risk of contamination, we recommend you take a proactive approach to managing any future infections. Sanitisation can help prevent this and keep your environment clean and virus free.

”

“We had another visit today from Unique Clean to our care home in regards to sanitising our home. It's been 3 weeks since our last visit and to ensure we remain that little bit safer, we have had additional sanitisation. This was carried out methodically and in the least disruptive way. The staff were very accommodating to or residents moving from area to area. So far we've been been Coronavirus free. We can't thank the Unique team enough. Thank you and stay safe.”

— KIM THOMPSON
MANAGER - HULTON CARE HOME

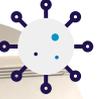

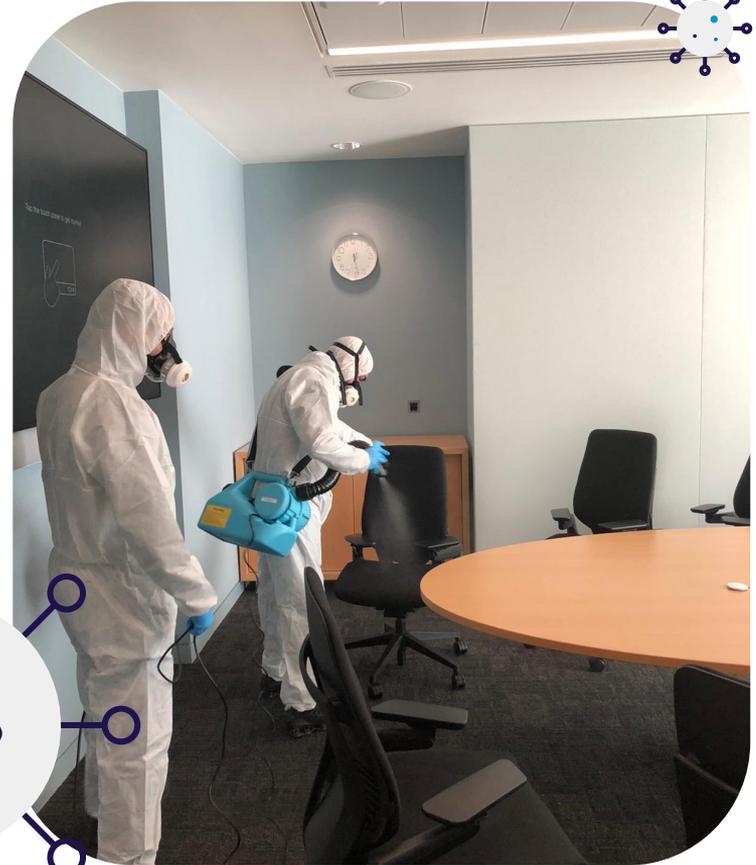

“In our current pandemic and across my portfolio of 23 Health Centres scattered across the North West, I have found Unique Clean to be a fantastic service provider. Always punctual, accommodating and flexible to our needs. Whether this be an Ad-hoc clinical clean or programmed PPM, Unique are always on standby to help and would be a great asset for any company.”

— REECE ROBERTS
OPERATIONS MANAGER - ERIC WRIGHT

Since Covid-19, everyone in the world now knows the importance of sanitisation and how effective it can be.

Covid isn't the only one, there are many more viruses out there that cause all sorts of illnesses.

We believe sanitising should take priority over other monthly services like window cleaning and grass cutting as these won't keep you're business open all year round, however sanitising every will give you more flexibility.

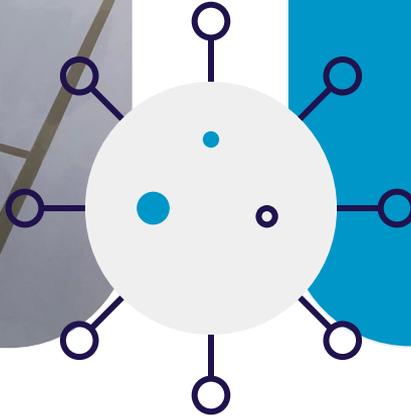

All our staff are fully qualified with many years of experience.

Our team was recently working alongside the NHS staff at the Royal Blackburn hospital helping clean and sanitise the Covid-19 wards keeping the NHS staff and patients as safe as possible.

We were also part of the team effort of sanitising the new temporary Covid hospitals in Banger, Wales.
